**Harvest Initiation:
Setting Intention for the Autumnal Equinox
A Three Part Discourse**

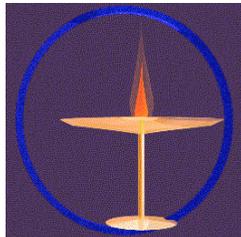

**PART II
Integration of Body-Mind-Spirit**

Meditate often upon the bond of all in the Universe and their mutual relationship. For all things are in a way woven together. - Marcus Aurelius

The I AM Presence of Kuthumi, World Teacher of Humanity, welcomes you once again to enter this Path of Expansion In Joy. In Part I of this three part discourse, we have located human consciousness in the Galaxy, we have discussed the meaning of the Autumnal Equinox and we have outlined three aspects of Galactic Alignment.

From here, located in the Ascending Arc of Consciousness, we activate our intention through the heart-mind of the high self and the soul of Eternal Spirit. Let us remind you of the words with which my I AM Presence of Kuthumi opened Part I of this discourse:

Belief is nothing; Gnosis is All.

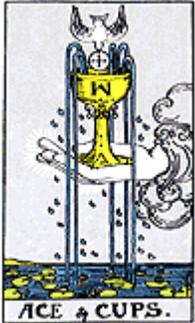

Greek Symbol of Gnosis

Are you able to know, to distinguish, to discern, the Divine Spark within all things? Do you have the knowledge to influence or *control* Love? (A trick question!) **Do you have full self-acquaintance, full knowledge of your own heart, so that you may be initiated into the True spiritual nature of the cosmos?** Only in this way, through this path, do you have True Gnosis, do you know the true meaning of Love and can you **live a spirit filled existence.**

**How does one truly Know?
Not through the mind, but –
through the integration of Love in Body-Mind-Spirit.
In this way, you teach what you live.
You live what you love**

**and you become the change you wish to see in the world.
In this way of Gnosis,
You Live a spirit filled existence.**

Let us begin our preparation for the Equinox by illuminating the symbolic energies of Body-Mind-Spirit:

BODY	MIND	SPIRIT
10 Pentacles	3 Cups	Ace Cups
		

- **AFFLUENCE**
- **PERMANENCE**
- **CONVENTION**

Exuberance
Friendship
Community

Intuition
Intimacy
Love

Ascended Master Energies of these Cards (Aura-Soma Tarot)

Paul the Venetian	Wings of Change	El Morya
67	48	50
		

Keynotes of these energies:

Divine Love merged in Service
Spirituality in Action

To clarify one's Life Purpose
A time to look within

The Power behind the
Throne of Consciousness

The numerology of these three aura-soma is 12. 12 is the system that we will be exploring and experiencing in the feeling side of our being during the days of the Equinox. To integrate the 12 within the body, is to access Ascension Keys and to open to your own higher inner Teacher.

There are many ways that these energies may be activated and integrated through the Equinox experience, for example:

Affirmations based on tarot energies:

- ❖ In my body – manifest form, I am bringing together (“convention”: to “convene”) the qualities of affluence and permanence.
- ❖ In my mind – manifest thought, I am creating an environment of exuberance, friendship and community.
- ❖ In my spirit – manifest soul, I am cultivating intuition, intimacy, and love.

Intentions based on the aura-soma energies:

- ❖ At this time of Equinox, I am clarifying my Life’s Purpose by looking deeply within. I am accessing the power behind the throne of consciousness (my soul) to create the greatest vision of my life that I may imagine. In this sacred way, I am activating my own unique spirituality to serve humanity through Divine Love.

Assistance of the Ascended Masters:

I call upon the Ascended Masters Paul the Venetian and Lady Adoremus to assist me in Creating from my heart: I thank these Masters for reminding me that it is through discipline and divine love in all the little things, that the greatest vision of my life is brought into manifest form.

I call upon the Ascended Masters El Moyra and Amerisis to assist me in creating my life with my soul in the “drivers seat”. I thank these Masters for reminding me that it is through surrender to the Divine and in accessing the power of consciousness and light, that I create my life mission and purpose in alignment with the greatest good of all concerned.

I call upon all Ascended Masters on the Wings of Change in the New Aeon to remind me to open my heart, mind and soul to the moving force behind All in this time of rapid acceleration and alignment, the Divine Creator of All things which exists inside of me, for I am part of All and the Creator is All of All.

In gratitude and thanks, I am One with the Divine.

(Note – this next section was written on 8-20-2006)

We welcome you on this morning of Birth of Consciousness. You may also call it the Rebirth of the Conscious Mind. This is a day of **8 “20-20” -06 Vision**. To see all with Perfect Clarity. For those of you who have looked into the akashic records, you may bring to mind the vows you had made in past lives that were energetically active and driving you to continue to hold onto patterns of the past. If you have not examined your past life vows and cleared them, we suggest you do this before the Equinox so that your life today, is about today and not about fulfilling vows you made in situations of stress, loss and despair.

If you come into the Autumnal Equinox for example, operating from the energy of powerlessness, you will leave the Equinox perhaps intellectually satisfied but still

spiritually disempowered. This is very important in setting your intention and then taking action. For we will not be simply discussing concepts of intellectual and spiritual interest. We will be asking each of you to take action, through your power center, the hara chakra, to create your vision for the next 6 to 12 years. No one can do this for you but you. What you choose to create is what you will manifest. The Autumnal Equinox is about Manifestation. We remind you of one of the three definitions of Harvest we provided in Part I:

Harvest is the spiral of Conscious Creation into the Heart of the Divine.

Harvest is Death and Rebirth. It is about starting anew. In the Harvest Initiation, we begin at conception and move rapidly through ten stages until we arrive at Death/Rebirth.

The 10 stages culminating in Harvest:

- Conception
- Gestation
- Birth
- Infancy/Early Childhood
- Adolescence
- Higher Learning - University
- Independence – Establishing our place on the exterior planes of life
- Power – True self knowledge
- Surrender – Letting go of outcomes
- Death/Rebirth - HARVEST of All you have learned, experienced and cultivated over this entire cycle of consciousness.

(We will examine these 10 stages in Part III, integration of Love-Wisdom-Power.)

Symbol of Immaculate Conception through Harvest.

In the integration of Body-Mind-Spirit, We are asking each of you to look at your self-conception. And what is that? Is it an idea, a notion, a construct of who you are? Let us suggest that your soul is not based on your *belief* in your soul, as suggested by the Part I introductory statement by Yuketswar. Your soul exists, whether you “believe” in it or not. Your soul exists whether your scientists can prove it or not. Just as more than “8” or 9 planets exist, whether your scientists “believe” in them, define them as planets or agree on their existence, or not. Your belief is simply one self-defining factor in the REALITY of your soul’s existence. Knowing your beliefs is indeed exceedingly important, for they

impact your creations in numerous ways, but spiritual self-conception, you see, is about letting go of your beliefs of soul and experiencing what is True.

Let us suggest that self-conception is this:

It is your immaculate soul returning to its True Source.

The definition of conception that is of interest for all of us as spiritual seekers is, “the beginning or origination of something.” The Latin origin is based on the word *conceptum* which means abstract. Further, abstract means something that is “drawn away” from the material. The words, thus, provide us with the meaning of self-conception: the “self” begins in the abstract world of non-material; the “self” is created in abstract reality, as we know, in the heart-mind of the Creator. “But”, you may wish to object, “the Creator is within!” Yes!, “And”, continuing, the “Creator is without”. Yes, also. This is to agree with you that you are awesomely, magnificently powerful, whether or not you Believe in your own self-conception!

We will examine your self-conception, through the very powerful sacred symbols of the Virgin. We will reference a medieval text, not to examine religious belief around the Virgin birth, but to access a deeper Truth residing in the reality of your soul.

*This is the Truth of the Divine Creator’s Creation:
you are Immaculate Beings of Light.*

Immaculate means: “free from spot or stain.” This has nothing to do with biology, with sexual intercourse, or with physical conception. Immaculate conception is the Reality, whether you believe it or not, of how your soul is Created. It is the Reality of how you come into incarnation, time after time, through the Power of your own self-conception. You, our dear ones of Light, are the Creativity of Creation. Your light is no different from that of a super-nova . Think on that for some time, if you wish to Know Truth.

Above Super-Nova photo from a “free website”: <http://www.SpaceandMotion.com>

Now, we are asking you to examine, in great detail, the places that you have judged yourself “not to be” immaculate. A deeply Symbolic representation of this is seen in the Immaculate Conception Symbols of the time when the Arc of Consciousness was beginning to turn back to the Ascendant in the long course of 26,000 year cycle of Precession, the 14th to 16th centuries– the “Renaissance” or the Rebirth of the Conscious Mind.

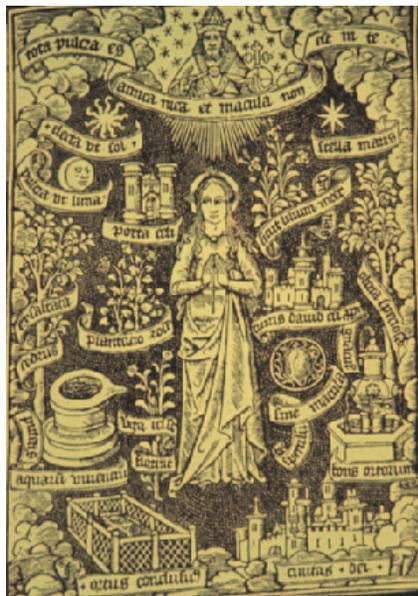

We will further suggest to you, our dear friends, that each one of you has had at least one incarnation during this period of Renaissance. Why? Because this period of Rebirth was just as critical to the self-concept of all of Humanity as it is Today, the time which we refer to as the Great Opening of Dharmic Revival.

Great Opening of Dharmic Revival.
This is the time that your soul may choose to live again in light
in full Gnosis of All of who you Are.

This is the time to shed the false concepts of error and sin and to fully embrace, by inner knowing, that you are Immaculate beings of Spiritual Light.

Let us proceed to the Book of Hours as a Source of Wisdom:

Book of Hours - Virgin with Immaculate Conception Symbols
Source: <http://www.mgardens.org/SL-1-Photos&Narrations.html>

In their veneration of Mary as the worthy Mother of God the faithful also invoked her in litanies of her titles - drawn from doctrine and from Old Testament figures applied to her by the Church Fathers.

In art she was accordingly depicted surrounded by her chief

biblical emblems, as in this page from a XVI Century French Book of Hours.

At the top God pronounces the words from the Cantice of Canticles:

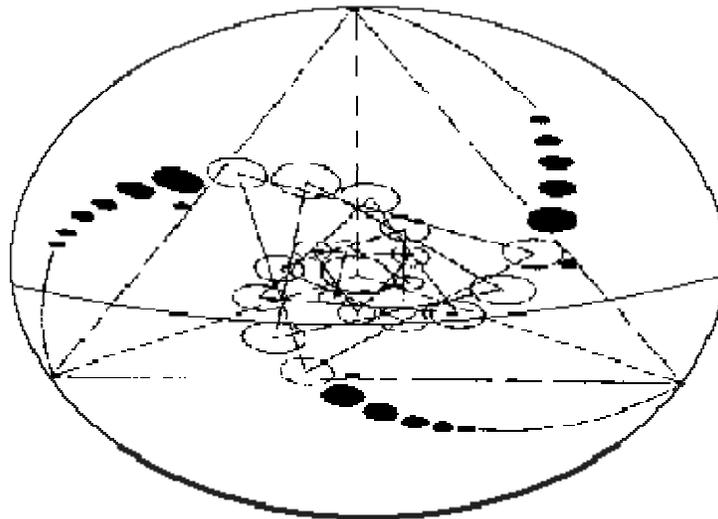

"Thou art all fair my love, and there is no spot in thee."

Surrounding the Blessed Virgin - portrayed here as the Immaculate Conception, as a young maiden prior to the Incarnation - are her emblems and the biblical phrases, in medieval Latin, which they depict:

- o Bright as the sun
- o Fair as the moon
- o Gate of heaven
- o Star of the sea
- o A lily among thorns
- o Exalted cedar
- o Rose plant
- o Tower of David
- o Fair olive tree
- o Well of living waters
- o Blossoming rod of Jesse
- o Spotless mirror
- o Fountain of gardens, Garden enclosed,
- o and City of God.

We ask you not to enter into duality thinking and identify the image of Mary with female or the Divine Feminine. For when we say that you are part of All, we mean male and female, Divine and Profane, Light and Dark. Moving beyond duality based thinking, you enter the Truth of the Trinities:

**Love is the unification point of all of dualities.
The combined aspects of male and female – lines and curves coalescing
into the One-ness at the center of All.**

The above image is of the “Julia Set” form. You may search this on the internet and locate the Arcturian Crop Circle which beautifully depicts this Truth. (Crop circles images are copyrighted.)

The image of Mary is thus, the symbolic representation of the dark jewel of creation, the abstract womb within from which we all “issue” forth into Light. Yes indeed, the Creator “said”: Thou are ALL FAIR my love, and there is no spot in Thee.” The most important word in this phrase is ALL. You are All fair, you are All spotless, you are All immaculate. Again, going to word origin, fair, means “pure and unblemished”. Again, All means “Entire”, the “whole”. Your Soul, all Souls, are created whole, pure and unblemished. Do you believe this? For where you do not, lie the keys to your Transfiguration.

We do not “do” your soul’s work for you. If you are truly interested in Harvest, you will find out what each of these sacred symbolic phrases of the Virgin means and you will look deeply into your soul in the *spotless mirror*. The measure of your progress and the yardstick of your willingness to take the wheel of your life into your soul’s hands and heart, is seen in the effort you put forth in knowing what each of these sacred phrases mean to you on your soul’s journey to Harvest Initiation.

What is the Purpose of this?

What we ask of those of you preparing for the Equinox on 9-23-2006,
is to be Conscious of your Creations

The Autumnal Equinox occurs at exactly 9:03 am in Arizona, on September 23, 2006. This is an encoded number of accelerating into the Phi Ratio, the Golden Mean and the Fibonacci sequence of exponential creation realities. Let us explain: numerology is an exact science based on Absolute Truth. Whole Numbers, the basis of sacred geometry, cannot be manipulated or degraded into falsity.

9:03 equals 12. (9+0+3)

At the Equinox Retreat, you will be living, breathing, aligning and grounding the energies of 12 into your physical, emotional, mental and spiritual bodies. We will examine and experience this in dynamic form as we integrate the 12 chakras in the body. On the day of Equinox, we transition into the Realm of the Divine, under the guidance of Paul the Venetian and Lady Adoremus, in the vortex spin dynamic of 13 and the Master Number 22. This will be explained and experienced during this Equinox.

13, our friends in Light, is the numerology of the Autumnal Equinox. It is seen the Tarot card of Death/Rebirth. When you shed the vows of the past, the falsity of ego and the fear in our emotional bodies, you may choose to be Reborn into the Absolute Truth Of the Creator.

The equinox numerology:

$$\begin{array}{r} 9 \\ 23 \\ \hline 2006= \\ \hline 2038 \end{array}$$

$$\begin{array}{r} 2+0+3+8 = 13 \\ 13 = \text{Death} \end{array}$$

- ENDING
- TRANSITION
- ELIMINATION

You have heard this: to be born anew, you must first die to the old self. This is the teaching of the resurrection. The personification of Death gives rise to many of your fears. To reap (the “grim reaper”), is to cultivate, cut or pull something from the ground, causing the life force to end because it is no longer in connection with the Earth, the Sustainer of All Life. Perhaps you understand, that if you believe in death as an ending, your soul will first experience an ending when you physically expire. If you believe in transition, there is no such thing as “ending life force”, but transformation and transfiguration and that is what you will experience. A very different dynamic of creation reality.

What is the personification of death? It is the sum of all of your fears, it is living and breathing in a body which is largely devoid of spirit because you are not grounded into your current reality (Earth) . It is living in the world of spirit because you have decided that physical incarnation is too difficult to endure. In this way, you are already experiencing the personification of death. Traditional Death is the tarot card of one who is ready to trample the gifts of spirit underfoot because he believes he is “right”. He “believes” he is right, he believes that one lives and one dies into a heaven or hell. Let us state that which is True: The Existence, the Truth of the Creator, is not dependent upon your belief in God. Your soul is not dependent upon your belief in the Soul. These Truths are Absolute.

When you move through the personification of Death, you allow your soul to come back into your physically manifest vehicle, your body, and you choose to operate from the power behind the throne of your own consciousness. When you operate from this place, your emotions become a free flow of internal harmony, rather than a reactive experience to the External world around you. This is integration of body-mind-spirit. This occurs in the incorporation of 12 chakras grounded into the physical, through emotion, heart and soul.

The Ascended Master El Morya will speak on this topic on 9-22-2006. This is a day of triple 2s – 2-2-2 – the Lovers of Tarot (6) and a gateway number of moving into trinity of

reunion with your own soul. Moving through death allows you to be reborn. If you resist this process of spiritual transformation, you actually empower the energy of literal Death by being disconnected from your own soul.

To transform means to bring in the full energy of your soul, connected in intention to Gaia, and thus, receiving the gifts of constant nourishment on all levels of your being.

To be transformed at depth, on all levels, means to be Transfigured.

Another way of showing you the power of the equinox is this:

$$9-23-2006 = 9+2+3+2+0+0+6 = 22 = \text{Rebirther's Awakening}$$

22 is the Rebirth of the Fool. It catapults us into the Return Journey to Self-Mastery. This is what you are here for:

**Mastery of Self,
Service to Humanity,
Glorification of the Divine.**

All of these energies will be brought into the 12 chakras within the body, integrated into a unified Whole as we Declare our Intention for the next 6 to 12 years of transformation, transubstantiation and transfiguration of our very Soul Essence.

AURA-SOMA Equilibrium Bottle #22

#22 Rebirther's Awakening
New Perspective, Rebirth of the Conscious Mind
Love without dependency

The Fool's Mastership
The fool awakening to a new way.
Stepping out of the shadow of the past because the lessons have been learned.
The student becomes the teacher,
the teacher becomes the student.
A new beginning for joy and deep self-acceptance based on unconditional love.

Transfiguration wells up from the Rebirth of the Conscious Mind, from the Revival of your Dharmic Pathway.

Transfiguration means this:

trans·fig·u·ra·tion *n.*

1. A marked change in form or appearance; a metamorphosis; a change that glorifies or exalts.
2. Biblical. The sudden emanation of radiance from the person of Jesus that occurred on the mountain.

Transfiguration is the process of experiencing the archetypal phases of incarnate life (conception through death/rebirth), to gather consciousness, to clear your karmic debts, and as a result of this process, to emerge in immaculate form, metamorphically transformed BACK into Beings of Light emanating radiance from within. This is the glorification of the Divine, precisely because you return your self-concept to the Source in purity and embrace the Truth of who you Are.

Like the Master Teacher Sananda, Christ on Mount Tabor, you do not need to die physically to be transfigured. You do not need to be sacrificed at all to Know the Truth of who you Are. When you Harvest all that you know to be True at this point in your life, you may choose to enter into the symbolic City of God, before physical death. You radiate light from within, from the center of your immaculately conceived soul. You spiral off the wheel of Karma and enter into the infinite spiral of Dharmic Service. Dharmic Service is Conscious co-creation from the Light of your Soul.

This is Harvest, as we have said:

Harvest is the spiral of Conscious Creation into the Heart of the Divine.

Where is and What is the Heart of the Divine? This, you already know, and if you think you do not, we ask you to ponder on this question to the depth of your being.

At the Autumnal Equinox, you may wish to photograph your own Transfigured Light Body in the energy of the Sun, for it is there and may be revealed unto you if you Ask. What does a light body look like in a photo? There are as many manifestations of your light body as there are incarnate beings.

Right Image from: <http://www.spaceandmotion.com/Images/cosmology/supernova-star-galaxy.jpg>

In closing Part II of this discourse, once again we ask, how does one Truly Know? How does one integrate, to make whole, body, mind and spirit? One knows and one integrates, in Gnosis, by experience through the Heart. One knows, in Gnosis, by integration of Love through body-mind-spirit. One knows, by feeling on many levels and seeing the All of who you are: Immaculate Beings of Light, the Creativity of Creation, and the Glorification of the Divine.

Namaste

Kuthumi

END OF PART II.

© Ronna Prince 2006
