## Angelic Astrology

☉ For the Time of Your Life ♀

**Astrology** is a wonderful gift that allows us to view ourselves through Mythical Tales woven together, creating our very own unique drama called "Life". It gives us a Guide for our Journey.

We choose the Time that we are born and the family and circumstances we find ourselves in. We Choose our path to Mastery. Remember!

**Through Astrology** we can see our Gifts and Dilemmas, Obstacles and Gateways. We can observe through the planetary cycles, periods of potential awakening and unfolding, when "Windows of Opportunity" are open. The choices we make on our journey are up to us.

### Learn to Love and Embrace the Unique Individual that You are.

We will look at Childhood issues, complexes and patterns you have developed over the years and even past lives, both positive and not so positive. **We'll uncover your Gifts & buried Treasures.** Astrology teaches us to accept/forgive ourselves and others and tune into our inner flow.

We will look at Current & Soul Patterns using Transits and Progressions. This gives a view of the personal and generational cycles you are experiencing. Periods of challenge are spiritualized by seeing your Divine plan unfolding, with Free Will being the choices you make.

**Focus can be on Relationships, Life Purpose, Relocation and Healing.** For Maximum Benefit we recommend a **Reading & Divine-Tune Up.**
